Liability waiver

The National Fund of the Republic of Austria for Victims of National Socialism constantly receives information on the individual objects on a cooperative basis from museums and provenance research institutions. All texts, objects and details on this website are carefully reviewed. However no guarantee can be assumed for their correctness, completeness or up-to-dateness. All liability by the National Fund is therefore excluded.

This website is used at the user’s own responsibility. The National Fund accepts no liability for losses or damage caused directly or indirectly by the information shown or the files made available for downloading.

The acquisition by museums of the objects in the Art Database is not necessarily questionable in the meaning of the Art Restitution Law (Federal Law Gazette I No. 181/1998) or the Vienna City Council Resolution on Art Restitution (Official Gazette of the City of Vienna No. 30/1999). Please note that some of the information published in the Art Database is the provisional result of provenance research in Austria. If only for that reason, no legal entitlement to restitution can be inferred from it.

The links to other websites have been carefully selected. The National Fund has no influence on their content and cannot therefore assume any responsibility for them. We would be grateful for information on broken links.
